

VNY CAC - Public Comment

3/2/2021

First Name	Last Name	Item	Comment	Meeting Date	Submitted
Debra	Reynolds	III. A. FAA's release of Neighborhood Environmental Survey Findings and Public Comment Period	I have written many of these comments on the subject and have attended air noise meetings for both Burbank and Van Nuys Airport. My neighborhood had ended up in the crosshairs of air traffic from both airports, even though we are not in a direct line route to most places. Both airports have started doing a giant loop south into the Santa Monica Mountains before heading to their destination. Some days are very good, it is cyclical, and other days are bad with lots of air noise. No-one asked us if was a problem, no-one checked to see what the increase of noise would be and no-one seems able to remedy the problem except to say that traffic can not be moved to a new neighborhood. We in the hills are also a new neighborhood. If you surveyed us we would tell you it is too noisy.	3/2/2021	03/01/21 7:41 PM
Gil	Imber	III. A. FAA's release of Neighborhood Environmental Survey Findings and Public Comment Period	The Sherman Oaks Neighborhood Council's Government Affairs Committee, at its February 23, 2021 meeting, adopted the following motion at the committee level: https://www.shermanoaksn.org/docs/34483741-7583.pdf	3/2/2021	03/02/21 8:27 AM
