

TAXIWAYS RECONSTRUCTION PROJECT, Year 2 – Taxiways C, H, M, N, P

FACT SHEET

In early October 2025, work will commence on an \$18.8 million, 5-month project to reconstruct segments of Taxiways C, H, M, N, and P. This project will deliver important upgrades and extended lifespan to the airfield facilities that contribute to VNY's world-class status. Improvements will be phased to maximize federal grant reimbursements and minimize operational impacts during construction.

Work will include reconstruction of:

- Taxiway C from Runway 16R-34L to 16L-34R
- Taxiways H, M, and N
- Taxiway P between Taxiway B and Runway 16R-34L

This project will be managed by Los Angeles World Airports' Development Group with RS&H, Inc. as the engineer of record and Sully-Miller Contracting Company as the general contractor.

Reconstruction includes:

- Full-depth asphalt pavement section reconstruction
- Infield grading and drainage improvements
- Airfield electrical improvements
- Airfield lighting and signage
- Pavement markings
